Technatomy Corporation Names Former Oracle Executive Robert Carney as Vice President Information Technology

(FAIRFAX, VA. October 19, 2007) - Technatomy Corporation, a Service Disabled Veteran Owned Small Business and 8(a) firm that provides Information Technology, Program Management, and Logistics and Engineering services to a variety of government and commercial clients announced today that Robert Carney, a former Oracle Practice Director, has been brought onboard as Vice President for Information Technology. Mr. Carney will provide oversight and management of corporate IT programs.

In announcing the appointment, Technatomy President and CEO Nadeem Butler said “Bob Carney is a perfect fit to our rapidly growing company. He brings a wealth of experience and IT development acumen that will position Technatomy for further growth and success as a premiere IT services provider to government clients.” Mr. Butler noted Mr. Carney’s vision and experience will help shape the long term strategic direction of Technatomy Corporation. His focus will be on leading Technatomy to new levels of IT and Program Management support for government clients.

“I am truly excited to join Technatomy’s dynamic team and look forward to being a partner in its growth” said Mr. Carney. “I am most impressed with the company’s strategic goals, its track record of service, and its commitment to quality processes.”

Mr. Carney is a veteran Oracle Practice Director and business development executive with nearly thirty years of experience supporting government agencies. From 1997 through 2004 he developed the Oracle Corporation’s consulting strategy coordinating promotion of Oracle database solutions to agencies and corporate partners. Most recently he developed business opportunities supporting the Department of the Army and other Defense agencies for Keane Federal Systems, Inc. Mr. Carney earned an undergraduate degree from the University of Dallas and an MBA in Information Systems Management from Marymount University.

Technatomy Corporation is headquartered in Fairfax, VA.
